

Report on Feedback Received from Students:

(1) Feedback Received from Students:

This questionnaire is designed to make a survey of the institutional feedback. The questionnaire consists of five sections comprising 29 questions. The major sections are:

1. Academics
2. Infrastructure
3. Co-Curricular activities
4. Services
5. Administration

The activities of the institution in the above five sections are being analyzed to create a quality profile for the year in relation to institutional vision and goals. The results would enable the institution to create a quality index profile.

The students are supposed to be the most important stakeholders of Higher Education systems. The interest and participation of students at all levels in both internal quality assurance and external quality assurance have to play a central role. Any Higher Education Institution needs to ensure that students have a voice at various decisions making processes, formulating learning and teaching practices and those views of students are to be considered as the primary evidence on which the quality of teaching and learning is evaluated. The Student Feedback Approach is basically about institutional practices, processes and frameworks that take into account students concerns of the quality of the education they receive. In each section, the report includes findings of the top tasks which candidates feel the most and least prepared in. The main objectives of the feedback system are as follows:

- To provide the platform to the students in identifying a greater role in the teaching learning process
- To help the faculty modification and improvement in the teaching methodology at the University
- To develop a communication channel between the management and students
- To maintain the functioning of University system in the field of teaching learning process, library, sports, administration etc. at its level best.
